DATE: 30 June 2011

EPA newsletter launches

(CARICOM Secretariat, Turkeyen, Greater Georgetown, Guyana) The CARICOM Secretariat-based Economic Partnership Agreement (EPA) Implementation Unit is today, June 30, launching the inaugural Issue of its flagship newsletter, *EPA Implementation Bulletin*. The Bulletin forms part of the Unit's Public Education Programme.

The electronically available publication is an effort to provide authoritative news, rigorous and original analysis and expert views on the CARIFORUM-EU EPA and its implementation.

The bi-monthly publication is a platform for outreach which the EPA Implementation Unit is leveraging, with a view to deepening and expanding engagement with an array of stakeholders. Raising awareness of and drawing attention to EPA implementation-related issues informs these efforts, as does interest in eliciting feedback from stakeholders. Such feedback is of interest, as EPA implementation is proceeding in earnest, pursuant to the signing of the Agreement by CARIFORUM States.

Please note that the inaugural Issue of *EPA Implementation Bulletin* can be downloaded from the following web link:
http://www.caricom.org/jsp/community_organs/epa_unit/epa_unit_main_page.jsp

Attached to this transmission are the Editor's introduction and Foreword to the inaugural Issue.
